Do's and Don'ts for Applicants

Relevance of the strategy

30 PTS

"Explain why the planned mobility project is relevant to the internationalisation strategy of the higher education institutions involved (both in the Programme and Partner Country). Justify the proposed type(s) of mobility (students and/or staff)."

DO

- ✓ Explain why you want to foster mobility.
Attract talent? Research purposes? Opportunities for staff development? Etc.
 - ✓ Explain the preference given to a certain region/country.
Is there any institutional policy favouring the cooperation with this region/country? Is there particularly strong faculty cooperation with a specific HEI?
 - ✓ Explain why the mobility project is relevant to your institution's internationalisation strategy.
Does your internationalisation strategy focus on building partnerships in education, innovation and research? Is the choice of the partner institution made for strengthening cooperation? How?
 - ✓ Explain why the planned mobility project is relevant to the internationalisation strategy of the partner institution(s). Please contact your partner(s) to find out.
 - ✓ Try to provide 'quantifiable information' on the profile of selected partners.
Size and influence in a particular area? Complementarity of faculties/departments involved? Similarity of study programmes?
 - ✓ Try to distinguish the specific aims for choosing mobility of students and/or staff.
Do you need to strengthen the partnership before sending students? Build mutual trust? Ease the recognition process? Staff mobility might be the way to start.
 - ✓ Keep it short and simple, but make sure that you get all your points across.
- In case of new cooperation agreements, also:
- ✓ Explain why building cooperation with a new region/country is relevant for all the institutions involved.
Diversification of your AND your partner's internationalisation strategy?
 - ✓ Explain the complementarity of your and your partner's institutions.

DON'T

- ✗ Do not be too generic in your answers.
- ✗ Do not target cooperation with each and every possible Partner Country, as budget is limited for International Credit Mobility. In 2015, the average number of Partner Countries in applications was 4 or 5.
- ✗ Do not focus only on your home institution, but describe what is in it for your partner and what the common benefits are. Refer to strategies in the Partner Country.
- ✗ Do not provide the same justification for the choice of different Partner Countries. Although you might have a largely similar reason for picking partners in the same country/region, benefits will vary depending on the institution. Be sure you make that clear in your description (e.g. by emphasising the differences).
- ✗ Do not copy-paste. If some parts of your answers are the same for each Partner Country or institution, answer them only once and refer to your first answer throughout the application.
