

**INVITATION to the TCA on
Internationalisation strategies in VET – a training event for vocational institutions**

Mallorca, Spain, 30st September – 3rd October 2018

Organised by the Spanish, Finnish, Hungarian and Dutch National Agencies of Erasmus+ for VET

Although strategic thinking and planning in Erasmus+ projects is inevitable, promoters are not always aware of its importance.

In order to support Erasmus+ VET promoters, especially VET colleges and schools, the Spanish, Finnish, Dutch and Hungarian NA are organising a TCA training focusing on internationalisation strategies in VET.

Institutions from Finland, Denmark, Belgium, Croatia, Sweden, Italy, Macedonia, Turkey, Norway and UK will attend this TCA.

During the training participants will have the opportunity to dive into different aspects of internationalisation strategies. Through case studies, peer learning and with the help of experts we will work on a common approach that will help the participants to set up and/or strengthen their institutions' policy on internationalisation.

Expected learning outcomes of the training are:

- understanding the value of strategic planning, strategy structures and the issues and processes involved;
- gaining knowledge of what strategic planning and approaches can bring to the field of internationalisation and mobility in VET;
- getting a picture of how to link internationalisation and mobility with the development of their institution
- being able to set up the next steps the institution will need in order to go on with their internationalisation strategy and make it alive and work as a shared view within their institution;
- becoming acquainted with indicators in order to measure the progress and whether the results achieved fit the purposes.
