

Erasmus+ and green jobs

Date: 18th May 2022

Place: Rome, Italy

Type of event: Transnational thematic activities linked to the objectives, priority target groups and themes of the Programme.

Working language: English

Number of Spanish participants (VET): 5

Profile of participants: VET organisations active on green issues (in particular organisations that have already developed or are developing Erasmus+ KA2 projects on the theme) as well as VET organisations interested in developing relevant Erasmus+ KA2 project initiatives on the theme.

Themes and goals of the event: The transnational seminar aims at promoting the contribution of the Erasmus+ Programme to the green transition through the exchange of experiences, tools and best practices in the field. In particular the seminar will focus on green employment, addressing the skilling and reskilling of workers and the anticipation of changes in the workplaces of the future, also through the promotion of relevant Erasmus+ best practices.

Expected results: The event will foster a higher awareness among participants in relation to the potential of Erasmus+ in terms of sustainability and promotion and support of green employment, addressing the skilling and reskilling of workers and anticipating changes in workplaces of the future. The seminar will enable a useful networking among newcomers and experiences organisations thus supporting the development of relevant project initiatives.
