The background is a solid blue color. At the top, there are several wavy lines in shades of blue and cyan. A dotted line in a light blue color runs horizontally across the upper part of the slide, just below the wavy lines.

This is the result of a project carried out in the English class. It consisted in reading some information on the Web in English about what happened in Galicia in November when an oil tanker called "Prestige" sank near the Spanish coast.

Students in 4° C have answered some questions about this incident and written a composition about it.

[Link to the project page](#)

Bellow you have some of their final compositions.

[Picture belongs to BBC News in Picture](#)

Writings about the Prestige Disaster in the Galician Coast by students in 4° C from IES Isaac Albéniz (Málaga)

Who is to blame?

Perhaps, this is a question that we are asking ourselves. But now this problem doesn't care. I think that the real problem is the environment and the fishermen of Galicia that remain inactive who pay the price, because now they are working on the cleaning tasks for cleaning the beaches affected (more than 180) and they have already taken 3000 tons of fuel oil. In the mean large number of environment repercussions in the affected area, like for example:

In the Costa da Morte, Estuaries of Anllons, Carnota....., And "at least 250 birds from eighteen different species have already been affected by the black slick".

In conclusion, a devastated ecosystem and thousand the people without work. Finally, I think that it's not fair! And together we have to help them. "I hope it has a happy ending".

Water Planet

These days everybody seems to be concerned and worried about CLIMATE CHANGE and other environmental issues. Politicians and many other famous and public people such as singers or actors express their opinions about those problems. They invest money and time on it. A good example is [the ecosite of Leonardo DiCaprio](#). There you can find a lot of information including some videos where he details the situation about "[Climate Change](#)" and "[Water Planet](#)".

Your task here is:

1st: watch the video about [WATER](#) once, if you watch it on the YouTube version posted on this blog you will be able to control it and go backward and forward as many times as you need.

What do you want to be in the future?

What are your plans and ambitions for the future?

Visit the following site about jobs and careers.
<http://www.bls.gov/k12/>

It contains clear and well organised information about many of the jobs you can think of.

Follow these steps:

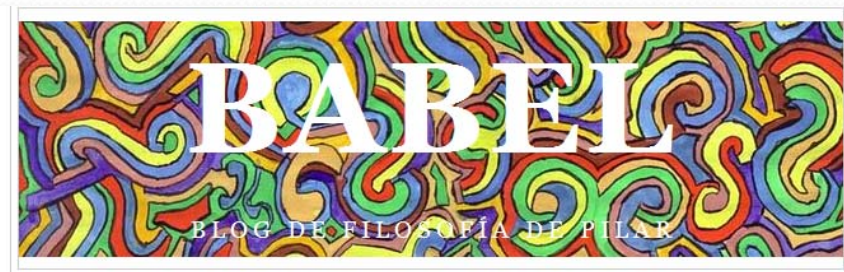

1. Click on the subject you like.
2. Select all jobs you are interested in and read about them.
3. Then, tell us about the job/s you chose and why.
4. Don't forget to include the answers to these questions:

- Did the information on this page help you think about your future?
- Which words did you look up in the dictionary?
- Which will be your dream job?

What's your favourite subject?

Maths	1 (10%)
Economy	0 (0%)
French	0 (0%)
English	12 (60%)
History	10 (50%)

Web Poster Wizard

Quick and easy online school projects and short reports.

Powered by 4Teachers.org

4Teacher Tools

Home | Teachers | Students | Search | Help

Welcome | **Get Started** | Helpful Notes

Web Worksheet Wizard and Project Poster have combined to make Web Poster Wizard. This FREE tool allows educators to create a lesson, worksheet, or class page and immediately publish it online. Teachers can also set up classes and assign projects to students. Students complete the assignments by creating their own online projects or reports. Teachers and students can even add images and links to their pages.

New Features:

- Centralized login for better teacher organization.
- Student and teacher information now in one account.
- Archive option keeps student projects longer than one month.
- Teacher Feature option creates one Web page of class' archived projects.

Worksheet Example:
Traveling South America

Poster Example:
Jupiter
